Objectives

The aim of the JACTRA project was to prevent depopulation of the cross-border region due to a lack of awareness of employment and training opportunities in the Comminges-Arán cross-border area of the central Pyrenees. **Dates** : 01/06/2022 – 30/11/2023

Budget : 8 805 €

Project actions

- Action 1: Help young people aged 16 to 25 develop personally, socially, economically and professionally through the performing arts in the form of theatre.
- Action 2: Mobilise local organisations (Pôle emploi, SOC, CFA, International Hotel School, Mission Locale, MJC, CRIJ, etc.) to facilitate exchanges and offer more opportunities to young people across the border.

Results

The main results achieved were:

1. Outreach through information sessions and joint initiatives led by training and employment organisations.
2. More than 10 young volunteers took part, with equal representation of both genders and nationalities (young people aged between 18 and 25 with educational backgrounds ranging from Year 10 to engineering).

Among these young people:

Before the theatre workshops:

4 found a job, an internship or a training course.

During the workshops:

2 found a job, 3 found an internship, 1 joined the Euroregional Assembly, 1 found a training course

and 2 continued to look for an opportunity.
