## Objectives

The NEOUSMONT micro-project aimed to create an educational kit available to all stakeholders involved in environmental education in the region, with the aim of raising awareness among these new users about the fragility of natural spaces, whilst providing them with basic safety guidelines. **Dates** : 01/06/2022 – 30/11/2023

**Budget** : 24 031 €

## Results

This kit has been developed to address key issues:

- safety
- biodiversity
- respect for the local Aarea
- overcrowding
- culture
- ecological transition
